Project Description :

The all-new project is a five-story building, where the ground floor is dedicated for services and car-parking only. The rest four floors accommodate 59 units divided equally over them.

The units are offered exclusively for selected senior bachelor executives and multinational corporate guests. The variety in the backgrounds of the guests makes this experience a relatively enhancing one.

Introduction :

In a huge metropolitan city like Jeddah, real estate developers tend to capitalize on the spending power of families. Singles usually face difficulties to find comfortable, stylish apartments that comfort their special requirements.

Solo Residence is -proudly- well planned and designed to answer these requirements. Here, a bachelor will find an elegant building that accommodates 59 modern units, supported
